English

As a parody of stealth games, this one is fun. The power ups vary from useless to overpowered, and the game as a whole is funny. Just don't expect it to keep your attention past one play through. The repetitive nature of the game doesn't lend itself to repeated playing.

So long as you expect 10 hours of humorous rather than skilful play, it's good. Anyone wanting more depth or longer play, skip.

. Simple & Fun. Enjoyed from start to finish. Cool OST if you like Metal Gear.
