Lightweight, multidisciplinary Pefi-CAD: The architects' solution, a lightweight, multidisciplinary, easy-to-use CAD solution for the professional. Light, portable and reliable CADfiles4You: A reliable and complete solution. With a free transfer of data to the professional. PefiCAD is the only solution which offers a range of modules in a single installation. It combines a comprehensive range of features and tools with a flexible, easy-to-use interface, making it ideal for both large- and small-scale projects. PefiCAD offers an intuitive, modern user interface. It supports both 2D and 3D, and offers a range of powerful tools. Thanks to its robust operating system, the user can easily manage projects in a fast, integrated and collaborative way. You can download PefiCAD for free on your smartphone or tablet! Free Cloud storage PefiCAD automatically provides a completely free 20 GB of storage space in the cloud for all projects stored on the device. You can therefore add your projects there at any time and immediately make use of the functionality. Online access PefiCAD is compatible with Windows, Mac and Linux operating systems. All you need to do to access your files online is to download PefiCAD to your computer, then connect it to the internet using a standard Ethernet cable and then send the files to the cloud. You can even use the same credentials for your PefiCAD installation as for your professional network, and access your files from anywhere in the world. Customised for architects and engineers PefiCAD is the only dedicated CAD solution on the market that has been designed and tested by architects and engineers for this industry. PefiCAD is more intuitive than other solutions, and has been specifically designed to help you design at every stage, from the early stages of design and organisation of data, to the final stages of output and documentation. In addition, all tools have been designed and built with the view of future proofing. New features are added all the time, so you will be able to benefit from the latest innovations from day one. Architectural Design PefiCAD has been

designed to provide an intuitive, modern interface. You can directly use the functions you need, without having to learn a new interface. When the functions and 82157476af
